Rescheduling a Class: Choosing a Specific Date

We **do not** manually transfer students from one class to another. If you want to reschedule, you must follow the process below:

How Rescheduling Works

1. **Submit a reschedule request:**

2. **Receive a reschedule code** (sent to you after your request is processed).
3. **Use your reschedule code to register for any available class** with open seats.

You are responsible for booking your new class using the reschedule code. If a specific date or class is important to you, we recommend **rescheduling as early as possible** to secure your preferred spot.
