Retroactive Discounts Are Not Available

Tasting Classes · https://www.vinology.com/helping/retroactive-discounts-are-not-available/

We occasionally offer discounts, sales codes, or even a free month of our membership program **as a reward for signing up for a class or course**.

However, these discounts are intended to **encourage future attendance**—they **cannot be applied retroactively** to a class or course you have already purchased.

All purchases are final, and discounts cannot be applied after registration.

If you'd like to take advantage of a future discount, keep an eye out for our promotions and consider joining our **membership program** for exclusive savings.
