Will I like the Philadelphia sommelier courses?

If you enjoy asking why a wine tastes the way it does, you'll have plenty to work with here. Imagine tasting two red wines side by side. One leaves a drying grip on your gums. Your instructor can help you recognize that sensation as tannin, then invite you to taste both wines again while the difference is fresh.

Wine lovers, restaurant staff and people preparing for work in the wine trade study together. The Core program welcomes beginners and gives experienced tasters a structured way to test their judgment. Explore Philadelphia Core.
